

**(MIM) Master of International Management in International Business**

**Offered at the following Schiller International University Campuses:  
London, Heidelberg, Florida**

The MIM program has been designed to prepare students who have already completed a course of study in a non-business field specifically for positions in international management. The 36-semester-credit program leading to the MIM degree may be completed during one academic year at the London, Heidelberg or Florida campuses. The course work spans a variety of topics relating to business administration including management, marketing, accounting, communications, business law, and economics. Upon successful completion of the program students will have the solid basis of knowledge which will qualify them to enter managerial positions in a broad range of careers in international business.

**Admission:**

The Master of International Management program is open to qualified applicants who have earned a Bachelor’s degree or its equivalent. No particular field of undergraduate specialization is required for admission to the program, but a year of undergraduate mathematics is strongly advised.

**Graduation Requirements:**

In addition to the graduation requirements for all graduate students candidates for the Master of International Management degree must complete the following requirements:

1. A minimum of 36 semester credits (12 courses) at the graduate level, composed of the courses listed below, graduate level electives with appropriate prerequisites, or acceptable substitutes approved by the Program Advisor.
2. A final comprehensive examination or, subject to the decision of the Program Advisor, a thesis requiring a formal oral defense in lieu of the comprehensive examination. The elective thesis is in addition to the 36 credit hour requirement.
